Dermaplane

\$50

Dermaplaning is a highly efficient, safe, physical exfoliation procedure used to instantly clear away dry, dead, superfluous skin AND facial hair. This painless treatment immediately diminishes the appearance of dry fine lines, increases the rate of absorption of skincare products and provides a healthier more radiant appearance. It creates the perfect canvas for makeup application and is a wonderful treatment for photos and special occasions. Dermaplane is not performed on active acne prone skin or skin prone to breakouts. Your face will immediately be more vibrant and smooth. Moisturizers and other skin care products will be absorbed better. Hair will return gradually and softly.

There is no down time. Your skin will be sensitive to the sun for a few days, so always be sure to use a good SPF after your treatment. For better results add on our Custom Facial!

A regular dermaplaning regimen, once every 30-to-45 days, is a great way to maintain a youthful, healthy glow. Give us a call to schedule a dermaplaning facial or a free consultation.
